

Hello,

I am honored to share an update with you from our in-district events, bills I have voted in favor of, and media appearances in the 118th Congress.

**I voted in favor of H.R. 140 – Protecting Speech from Government Interference Act**

H.R. 140 prohibits federal employees from advocating for censorship of viewpoints in their official capacity. Employees found in violation would be subject to civil penalties.

Even though there are far too many bureaucrats in Washington, their personal political opinions should not have influence over the implementation of federal legislation.

**I voted in favor of H.J.Res. 27 – Providing for congressional disapproval under chapter 8 title 5, United States Code, of the rule submitted by the Department of the Army, Corps of Engineers, Department of Defense and the Environment**

The Biden Administration has repeatedly fought to grow the size of the federal government over the last two years. H.J. Res. 27 repeals the EPA's rule to regulate even the smallest of bodies of water in the United States. Power should rest in local and state governments, not the federal government, and I'm fighting each day to ensure that happens.

**I voted in favor of S. 619 – COVID-19 Origin Act of 2023**

S. 619 requires the Office of the Director of National Intelligence (ODNI) to declassify all information relating to potential links between the Wuhan Institute of Virology and the origin of COVID-19.

For years Democrats called Republicans conspiracy theorists when we claimed Covid-19 was not a natural occurring virus. Yet three years later, Biden's FBI and Department of Energy have concluded Covid-19 was created in a Chinese lab. I look forward to reviewing the ODNI's report and holding China accountable for their egregious actions.
